STREAMING VIDEO

Video solutions can help brands tell a story to a desired target audience in real time, at any time, anywhere in the world. OTT (over-the-top) advertising is delivered directly to viewers over the internet through streaming video services or devices, such as smart or connected TVs (CTV). Now you can advertise with the same impact as TV commercials but to specific, targeted audiences.

Programmatic pre-roll video (15 or 30 seconds) increases brand recognition and is a strategic way to target a specific audience online.
